At this year’s **Hiroshima-Nagasaki** action at the **Livermore Nuclear Weapons Lab** we will honor the life of our dear friend and nuclear disarmament champion, **Daniel Ellsberg**. In this time of growing global nuclear dangers, **we will gather at the West Gate of the Lab at 9 am on Friday, August 4**, for a solemn silent vigil to remember Dan and demand dismantlement of what he termed the “Doomsday Machine” — starting at the Livermore Lab, which continues to design and develop nuclear warheads. **From 9:30—10:30 am at the West Gate** we will debut a new video compilation of Dan’s most compelling and inspiring talks from past rallies at the Lab. **Please bring your banners and join us!** Park on Daphne Street. (The video will be available on line for sharing on August 6 and 9 and beyond.)
